

BUILDING YOUR FUTURE

# ABOUT MIKAT

**Michael  
Arvanitagis**

With over 24 years experience in the construction industry, Michael as the owner and director of Mikat Constructions continuously strives to be his best. As a carpenter by trade and with constant up-skilling Michael passes these same expectations and attributes through to his employees and contractors.

His motto is "if I won't have it in my house, then you don't do it here", thus maintaining a continuously high standard of workmanship, which is reflected in the finished product.

**David  
Dunlop  
Anderson**

With over 30 years experience in the construction industry David applies a hands-on, practical, "no-fuss" style of management and employs this methodology and philosophy in managing personnel and process management. David communicates in a clear, well defined language and relates confidently on all levels, equally well with internal and external contacts.

Committed to safe, quality process management to support organisational objectives and produce optimal outcomes.

# TESTIMONIALS

We have been in our new house for just over 12 months and it has been remiss of us not to formally thank you for the great job done by you and your staff in building our new home.

As you know, the site and the design of the house had their complications but you managed to overcome these and deliver outstanding quality on time and on budget. We are particularly grateful for your helpful advice on ways to cut costs without compromising the integrity of the design or the quality of the construction.

The finishes, including the kitchen, bathrooms, media and other fittings, were first class.

We have built a number of homes over the past 10 years or so, but this was the first one built by your company and it has been our best experience in terms of dealing with a genuinely service-oriented builder who delivered an outstanding result for us.

Building a house can be a stressful experience for many people but your service ethic, attention to detail and high construction standards made this a truly enjoyable experience for us.

Thank you once again.

Tony and Maria
